

EMBARGOED 12TH SEPTEMBER 2016 MEDIA RELEASE

FlyPelican to commence Air Services between Newcastle and Coffs Harbour.

FlyPelican announced today that flights between Newcastle Airport and Coffs Harbour will commence on Monday 17th October 2016.

FlyPelican is a Newcastle based independent regional airline that operates a fleet of 19 seat pressurised British Aerospace Jetstream 32 aircraft.

C.E.O. of FlyPelican, Paul Graham said:

"FlyPelican is very excited to be adding yet more routes to its network. Newcastle to Coffs Harbour is very well suited to our Jetstream 32 aircraft that seats 19 passengers. The flight time is just under 50 minutes and we will be operating weekday services and a Sunday service providing an essential link between these city pairs.

Discussions with Coffs Harbour Council and Newcastle Airport have been very positive and we are thrilled to be expanding our network and increasing capacity into both of these growing airports.

The key to making this a successful route will be to provide regular, reliable services with attractive fares that are within the budget of the leisure and business markets."

Airport Manager for Coffs Harbour Regional Airport, Dennis Martin said:

"We are delighted to welcome the arrival of FlyPelican's new services between Newcastle and Coffs Harbour. This new route provides the Coffs Coast with a valuable new travel link that will boost both leisure and business markets to the region."

FlyPelican one-way fares on Newcastle – Coffs Harbour services will start from just \$99.00 inclusive of all taxes. Flights can be purchased directly from the FlyPelican website www.flypelican.com.au
